

**All Pakistan
Fruit & Vegetable Exporters,
Importers and Merchants
Association**

COMPANY PROFILE:

PFVA is striving to increase the horticulture export of Pakistan . From research and Development to exploring new markets A little bit of planned effort can significantly boost the production and export of quality fruit from Pakistan.

Pakistani exporters in recent years have gained considerable knowledge about modern horticultural trade. This understanding has also been a driving force behind the growth in Pakistani exports.

I am hopeful that PFVA will continue to operate like a catalyst for the exports of industry. And, it will also keep up its efforts to bridge all stakeholders including growers, exporters, local and foreign buyers and above policy makers.

All Pakistan Fruit & Vegetable Exporters, Importers & Merchants Association was established in 1986. Due to the enormous potential of Pakistan's horticulture products in the global market Create an export orientated environment facilitated through procedures and quality standards through regulations and incentive schemes. Being an Agricultural State Pakistan Produces Best Quality Fruits & Vegetables. In order to promote export of fresh fruits & vegetables up till now the Association has been successful in its efforts and still striving hard for further expansion in the volume of exports. The Association is member of Federation of Pakistan Chamber of Commerce & Industry.
