

SGS Pakistan Pvt Ltd

COMPANY PROFILE:-

SGS Pakistan is serving here in Pakistan since 1952 and continue its journey of success by keep on adding new capabilities. Our global network and expertise provide single, consolidated services that can help you reduce risk, improve efficiency and ensure compliance to contractual or regulatory requirements in all your manufacturing, sourcing, and distribution or retailing operations.

SGS offers an analysis of full supply chain of textiles, leather & footwear and carton & packaging, food and restricted substance services (RSTS) through One Stop service that includes:

Laboratory Services

SGS labs verify that the quality product produced is as per the requirement of the buyers and any problem associated is sorted out at an initial stage, saving time and resources and facilitating manufacturers/ exporters to improve the quality of the product and its process validity. The labs are ISO 17025 accredited which are being operated in Karachi, Lahore and Faisalabad.

Inspection Services

Independent pre-shipment inspection of goods helps identify potential product defects or inconsistencies in batch quality. Our inspection services include in-line inspection, during production (DUPRO) inspection, final random inspection (FRI), stuffing witnessing and loading supervision.

Corporate Social Responsibility Solutions

This service includes Code of Conduct Assessment, Factory quality assessment, health & safety, WRAP, CT-PAT, BRC, SMETA, ETI, ICS. It also includes technical audits such as Factory Evaluation & Assessments and Continuous Improvement Audits.

Trainings

SGS offers different trainings on quality assurance principles, market requirements and other topics designed to help your organisation develop, implement and maintain comprehensive management systems including training on Munsell 100 Hue and Colour Assessment understanding, Lab Testing & Management, QA/QC Trainings, Social Compliances and Technical Audits. SGS Pakistan is the approved trainer by AATCC, SDC ASTM training program.

Technical Assistance Services

Textile industries face severe challenges while exporting goods and it is inevitable that many shipment and brand image problems are the result of back process quality issues which are mainly due to incomplete understanding of the complexities of the process. We aim to provide knowledge and method based inputs on problem solving and to address various issues faced by the client. With our expertise and detailed knowledge of the textile supply chain we can ensure that the client's business is improved technically, environmentally and financially. Our major strength is our ability to fully comprehend the complexities of industry and then present solutions and advice at a level that is appropriate for each individual client.

AREA OF INTEREST:

Textile Certification
