

Fast Cables Limited

Company Profile:

Fast Cables is a leading manufacturer of electrical cables and conductors in Pakistan. Our emphasis on quality has made Fast Cables one of the most reliable brands in the cable industry of Pakistan and the choice of leading electrical consultants, engineers and architects in the country.

Our manufacturing plants in Lahore are equipped with state of the art technology such as Catenary Continuous Vulcanization (CCV) Line, Testing Laboratory upto 75 kV and Aluminum Alloy Plant along with excellent quality assurance systems. In addition to our current product portfolio, we also manufacture electrical cables and conductors to cater the specific needs of our valued customers from diverse sectors. Leading laboratories and institutions in the country such as High Voltage and Short Circuit Testing Lab (HV&SC), Central Testing Laboratories (CTL), Pakistan Council of Scientific & Industrial Research (PCSIR), University of Engineering & Technology Lahore and Texila (UET), Metal Industry Research & Development Center (MIRDC) and National Physical and Standards Laboratories Islamabad have also confirmed the quality of our products.

Awards received by Fast Cables include 'Brand of the Year, Gold Medal Award' from the Prime Minister of Pakistan and international '3G Product Excellence Award'. Fast Cables is also the first cable manufacturer in Pakistan to receive the prestigious Gold Certification from KEMA Laboratories in Holland. The Gold Certification of Fast Cables Low Voltage (LV) and Medium Voltage (MV) cables from KEMA Laboratories reflect the company's commitment to provide its customers with the best quality products. Fast Tasdeeq, a SMS verification service further empowers Fast Cables customers. They can now verify the genuineness of Fast Cables' products purchased from the market before installing in their homes. Fast Cables continues to be at the forefront of new innovations in the cable industry and is committed to delivering excellence in its products and providing the best quality to its customers.
