

## **Iftekhhar Ahmed & Co**

### **Company Profile:**

IAC's core line of business is processing and selling fresh fruit, vegetable, fruit pulp, paste, fruit concentrate and clarified fruit juice concentrate. IAC is a name to reckon with in the world of horticulture produce. It has steadily grown in size, scope and reputation for well over 50 years to become an export powerhouse of today.

Our experience is not in export alone, we are equally skilled in orchards management and pre & post-harvest treatment application. Since 2004 we have diversified towards fruit and vegetable processing with the inauguration of our fruit processing factory. Our vast experience in the field of fresh fruits procuring and supplying enabled us to setup fruits processing aseptic mango pulping plant of 10 MT/HR with the most modern equipment procured from Italian fabricators.

In 2008, we installed another state-of-the art Italian and German multi-processing plant for value added ingredients like clarified apple, mango, dates, juice concentrate and fruit pulp/puree of mango. The plant concentrator operates on four effects and is equipped with high efficiency aroma recovery.

In June 2015, we established a new factory for fruit pulp/puree, paste and concentrate in Sargodha city. The new plant is designed with a capacity to process 14 tons per hour.
