

## **Burhan Gas Company PVT Ltd**

### **COMPANY PROFILE**

Burhan Gas Company was established in 2013 at plot No. 176-178-A Small Industrial Estate III, (EPZ) Gujranwala Pakistan. The company is equipped with the state of art technology and designs approved from professional architects and civil engineers. It has covered area of 50,000 sq./feet.

BGC is proud to be the pioneer in manufacturing Liquid Petroleum Gas (LPG) Composite Cylinders in Pakistan. These LPG cylinders are manufactured according to set standards of ISO 11119-3/ BS EN 14427. We have a proper R&D and Quality Control Department ensure stringent Global Standards. Cylinders are further evaluated and inspected with the witness from TUV Inter Cert Saar and ECM Italy.

The management owns diverse and dynamic experiences in natural gas industry sectors and has been extensively contributing their research and development work national and international forums. BGC consider the valued customer as the family member and shareholders of it, which is reflected by economical and eco-friendly units and products.

The BGC plant structure is a reflection of modern technological designs, which is based on, imported and highly sophisticated material from various countries and is efficiently installed to ensure the high levels of effectiveness and performance of work. The high quality of fiberglass and HDPE are sumptuously used in plant for LPG gas tanks. Cylinders are manufactured according to national and international demands and strict criteria have to follow in quality and to ensure the safety and eco-friendly environment.
